## **ALAN Applications Now Available**

**KENTUCKY**  
**Adult Education**

  
*Your future starts here!*

*The following was sent to the KYAE listserv.*

### ***ATTENTION: All Math Instructors***

The *Active Learning in Adult Numeracy (ALAN) Initiative-Fractions* application process is now available. The initiative will be led by mathematics curriculum and professional developer Steve Hinds. Up to 20 mathematics instructors from selected programs will have the opportunity to learn from, teach and give feedback on a series of active learning fractions lessons devised by Mr. Hinds. Participants will attend a total of four days of workshops that will guide them to use the lessons effectively. This is an opportunity for participating teachers to gain an advanced understanding of how high-quality lessons are designed and implemented. More information about this exciting opportunity is available on page 30 of the [2014-15 PD Handbook](#) .

Interested instructors should complete and submit the ALAN-Fractions description and application to Gayle Box, [gayle.box@ky.gov](mailto:gayle.box@ky.gov) by the **January 28<sup>th</sup> deadline**. [Click here](#) for the ALAN-Fractions description and application.
